

# *Stop Police Brutality!*

On Friday, November 23, Miami Beach Police responded to a call of someone suffering a mental health crisis. Instead of helping him, Miami Beach Police beat a 74 year old man into a coma.

Bernie Dyer has been giving to this community since the 1960s, when he helped calm tensions after urban unrest and established organizations to develop Liberty City and other poor neighborhoods. Bernie is a civil rights legend in Miami, but that did not help him when Miami Beach Police arrived.

Miami Beach was informed of Bernie's mental health crisis and age, and still beat him unconscious and into a coma.

In two months, police have killed four (4) unarmed black men and beaten a local legend into a coma. Enough is enough.
